
Continuous Coating International, Inc. ® (CCCorp), headquartered in Orange, California, has been manufacturing drywall corner trims since the mid 1950's. CCCorp has gained a reputation as a manufacturer of high quality Bullnose and traditional corner beads. We also manufacture a complete line of paper faced nail-on and tape-on profiles. In addition, we also carry drywall accessories including corner caps and The Original Cornerbead Tool®. Our complete line of bare metal and paper faced trims, allow our customers to choose the products that are best suited for their needs.

Our continued goal is to provide our loyal customers with the highest quality trims on the market, allowing them to use our products with the assurance of no call-backs and ease of application. We will also strive to provide unparalleled service and technical support to our customers.

12'	42	48	504

TRIM-TEX

Made of rigid vinyl, Trim-Tex Corner Bead creates a rust proof, dent resistant finished corner. Available in multiple lengths to help reduce waste and minimize splicing. The intricate pattern of holes allows mud to penetrate through the bead to the drywall. The bead becomes part of the wall. Easy to use. Simply fasten to the drywall and you're ready to mud.
