LIMITED LIFETIME WARRANTY

Parts available

Drywall Master Tools understands that the key ingredients for success in the automatic taping tools industry are:

1. INTERCHANGEABILITY - We know that contractors want to work with tools that they are familiar with, can always get parts for, and have parts that are interchangeable with other major manufacturers in the industry. Drywall Master Tools believes that having quality parts in our Automatic Tapers and taping tools will limit maintenance concerns so people aren't driven back to renting. Our parts don't wear away as easily as other brands. Planned Obsolescence is NOT our Business Plan! We want to SELL tools.

2. QUALITY AND EXPERIENCE - Drywall Master Tools has quality Engineers with industry experience design our tools and make sure that they are thoroughly tested before being released on a mass level. Our reputation is important to us and we want customers to have trust and faith in our tools. We've had a track record for success. Our field tests have also been excellent.

3. BEST PRICE PERFORMANCE – We know that you have your choice of Taping Tools. Some are more expensive and some are not. However, we believe that we offer QUALITY tools at the BEST VALUE and are more AFFORDABLE than industry leaders.
