WAL-BOARD® BRAND

Drywall Saw. This 15” drywall saw features a stiff blade (.060”) and coarse teeth. Because of its excellent balance, this heavy-duty saw cuts drywall fast with less effort.

DS-15 15” Blade with Plastic Hdl

Wal-Board Utility Saw, Model US-71. Top grade hardwood handle is contoured for comfort. 6” blade is heavy-duty saw steel and will not bend or flex. Easily penetrates the thickest wallboard. Sharp point and special teeth cut smooth and stay sharp longer.

Wal-Board Hammer, Model WH-12. Drywall hammer with head forged of fine grade high carbon steel, heat treated for toughness and chrome plated for long life.

Wal-Board Hammer, Model WH-17

Wal-Board Hammer, Model WH-21

Wal-Board Circle Cutter, Model AC-31. Calibrated steel shaft enables cuts up to 16” in diameter. Cast zinc body is chrome plated for long life. Heat treated cutter wheel and center pin remain sharp indefinitely.

Wal-Board T-Square, Model TS-31. Thick 3/16” blade stays truer longer than conventional 1/8” blades. Head is made of aluminum angle stock with 3/8” flange. Surface is chemically treated to resist corrosion and wear.

Box Style Tool Pouch. Complete cap rivet construction and polished grain leather. Wide belt loop, 2” x 2” .

481 8” x 9-1/2” Right Hand

481L 8” x 9-1/2” Left Hand
