3.5 Gal Carton

5 Gal Pail

275 Gal Tote

(Items not to scale)

Product Description

READY-MIX TEXTURE MH is an non-aggregated, premixed vinyl base, economical texture coating designed to create a variety of textures such as orange peel, knock-down, splatter, stipple, or hand applied textures. *READY-MIX TEXTURE MH* is a product designed to conceal minor surface defects over interior gypsum wallboard surfaces. *READY-MIX TEXTURE MH* is formulated in a manor that allows it to be applied using air-operated or airless sprayers.

Advantages

READY-MIX TEXTURE MH will provide a more consistent, whiter, faster drying finish than most joint compounds and bag textures. *READY-MIX TEXTURE MH* eliminates the need for expensive mixing spray equipment without sacrificing productivity. Using an air-operated (30:1), or airless sprayer (min. 1.25 gpm), *READY-MIX TEXTURE MH* achieves a more uniform stipple texture, while eliminating the need to backroll, or the excessive overspray, common with mixing rig applications. Attaching a texture atomizer to a airless gun creates an attractive knock-down or orange peel texture.

Surface Preparation

Surfaces shall be clean, dry, and free of grease, wax, dust and gloss.

1. Prime with a vapor barrier, prior to stipple application. A vapor barrier paint may be applied over *READY-MIX TEXTURE MH* on knockdown or splatter ceilings.

Product Data

MATERIAL: Vinyl type

COLOR: White

PRODUCT SENSITIVITY: Do not apply when temperatures are below 50°F or above 95°F.

MIXING: Mix thoroughly.

DO NOT OVER-THIN PRODUCT.

APPLICATION: Brush, roller, hopper gun, portable texture machine, piston or stator type machine, air-operated (30:1) or airless sprayer (min. 1.25 gpm) with texture atomizer and air compressor (min. 9 cfm).

COVERAGE: Approximately 50-150 ft² per gallon. (Varies on surface, equipment, and texture desired)

DECORATION: Not intended as final coat. Should be painted when dry. May be left as a finish product on ceilings when used for full coverage stipple texture, on ceilings only.

STORAGE: Do not store material in direct sunlight, or in temperatures below 32°F.

Good, dry storage conditions will allow up to 9 months shelf life.

PROTECT FROM FREEZING.

PACKAGING: 1 gallon pail, 3.5 gallon carton, 5 gallon pail, and 275 gallon tote.

WARRANTY: If TWI's *READY-MIX TEXTURE* fails to perform as specified when applied according to specifications, TWI's liability shall be limited to refund of purchase price with proof of purchase.

SAFETY PRECAUTIONS: When dry sanding or spraying, wear eye protection and a respirator that are NIOSH approved when necessary.
